Dear Licensee:

Happy New Year and welcome to 2026! Each January gives us the opportunity to reflect on the progress we've made and to set our sights on the future. Thanks to your partnership, 2025 was a year of growth and innovation for the ABC Board. Together, we expanded product offerings, improved store environments, and strengthened our outreach programs to promote responsible consumption.

Looking ahead, we are excited to continue building on that momentum. We carry more than 2,500 SKUs across our stores, ensuring that customers have access to the widest variety of products. This figure reflects the items available to fill customer orders across our stores, providing a strong and diverse selection. Construction is underway on additional wholesale facilities to better serve licensees statewide, and we remain committed to keeping shelves stocked.

Our mission remains clear: to protect the health and welfare of Alabama's citizens while providing excellent service. Programs such as Under Age, Under Arrest and our community education initiatives will continue to discourage underage drinking and encourage responsible adult consumption. We are proud to balance regulation with customer service, ensuring that Alabama remains among the nation's leaders in per capita state revenue while maintaining one of the lowest levels of per capita consumption.
As always, we thank you for your dedication and cooperation. Your efforts make it possible for us to serve the people of Alabama effectively and responsibly. With your continued support, we look forward to a safe, successful, and prosperous 2026.

Sincerely,
Curtis E. Stewart

Beyond the Margarita

Tequila Cocktails That Actually Move the Needle

BY CLARE TAYLOR

The Margarita may be the engine of every tequila program, but it's also the ceiling if bars don't offer guests a way out of the default. Tequila is one of the fastest-growing spirits categories in the country, yet most menus treat it like a one-lane highway: citrus, orange liqueur, salt. There's nothing wrong with a classic — it pleases most — but bars that push beyond it are building a stronger craft and finding a more engaged guest.

Here's where tequila cocktails are actually evolving — and what's selling.

Here's where tequila cocktails are actually evolving — and what's selling.

Clarified & Crystal-Clear Builds

Milk punches and clarified citrus aren't going anywhere, and tequila works beautifully in these applications. Its minerality and brightness keep the drink sharp even after clarification softens the acidity.

Why it moves

Crystal-clear cocktails read premium and travel well across large dining rooms. They can be batched, bottled, or carbonated without losing structure.

Clarified Tequila Piña Green Tea milk punch

yields ~12 cocktails

750 mL blanco tequila
500 mL fresh pineapple juice
250 mL green tea (strong brew, unsweetened)
150 mL fresh lime juice
150 mL simple syrup (1:1)
1–2 serrano peppers, thinly sliced (seeds in for more heat)
300 mL whole milk (for curdling)

Combine tequila, pineapple juice, green tea, lime, simple, and serrano. Stir. Warm milk gently until just below simmer.Slowly pour the cocktail mixture into the warm milk (not the other way around to ensure clean curd formation). Let sit 20–40 minutes, undisturbed, until curds form fully.Strain through a fine strainer, then slowly through a coffee filter or chinois prep towel until crystal clear. Chill and bottle.

Grapefruit Oleo–Blanco–Champagne Yeast Clarified Paloma

Grapefruit Oleo (make first)

Zest of 4 grapefruits
200 g sugar

Mash together in a bowl, let sit 2–4 hours, stir occasionally, strain.

Batch (yields ~14 cocktails)

750 mL blanco tequila
250 mL grapefruit oleo, from above
300 mL fresh grapefruit juice
200 mL lime juice
100 mL water
150 mL simple syrup (1:1)
1 teaspoon Champagne yeast (rehydrated in warm water)
300 mL whole milk

Combine tequila, oleo, juices, water, syrup, and activated yeast. Let ferment 15–20 minutes — just enough to bloom aromatics, not fully ferment. Warm milk until steaming. Pour cocktail mixture into milk. Let curdle 30 minutes. Strain fine → filter through coffee filters until brilliantly clear.Refrigerate; yeast aromatics stabilize after ~12 hours.

Savory, Beyond the Salt Rim

Tequila's natural salinity and vegetal notes shine in savory builds. This lane continues to grow, especially in food-forward bars.

Applications

Tomato water + blanco tequila + basil oil

Celery, green apple, and lime with a salted agave rim

Roasted corn or poblano-infused tequila in a sour or highball

Guests perceive savory cocktails as "chef-driven," and they pair well with modern menus.

Low-ABV & Spritzable

Repeat after me. The spritz. Will. Never. Die. Tequila spritzes are lighter, cleaner, and hit the "all-day drinking" sweet spot.

Examples

Blanco tequila + elderflower + dry vermouth + soda

Tequila Americano (bianco vermouth + bitter bianco + tequila)

Reposado spritz with pear shrub and cava

They're easy to batch, profitable, and appeal to guests who want tequila without thinking they are committing to a full-strength cocktail, but I warn you, that is fraud because there is definitely enough booze in a spritz compared to an average cocktail.

Tequila Old Fashioneds & Spirit-Forward Variations

Guests who love whiskey cocktails are surprisingly easy to convert with agave. Reposado and añejo tequilas offer oak, spice, and structure without heaviness.

ideas

Añejo + piloncillo syrup + cacao bitters

Reposado + amontillado sherry + mole bitters

Tequila-mezcal split base + orange blossom honey

Dessert is Served: Coffee & Tequila

The tequila espresso martini is still a monster. But bars are moving past the obvious into cleaner, more balanced agave–coffee combinations.

Ideas

Reposado + cold brew + salted vanilla bean foam

Blanco + coffee liqueur + chile tincture

Espresso paloma (sounds weird, sells great)

Frozen, But Make it Better

The frozen margarita will always crush, but tequila shines in slushies that aren't citrus-led.

Consider

Frozen tequila negroni (big hit with patio crowds)

Tequila piña colada with coconut water for lighter body

Frozen tamarind-tequila daiquiri

Frozen drinks drive volume and are less time consuming during bar service.

Fruit Without Sweetness

Please think beyond a fruited simple syrup. Stronger performers that endow quality flavor include jams, frozen pulp or concentrate, and juice without added sugar.

Fruity Cocktails

Passionfruit highballs

Tamarind margaritas

Kiwi + blanco in a shaken sour

Grapefruit, nopal, or green melon combinations

Why it moves

Guests increasingly want “bright and punchy,” not dessert. These builds hit that mark.

What This Means for Bar Programs

The takeaway isn’t that the Margarita is outdated — far from it. It’s the gateway. But menus that treat tequila as a full spirit category rather than a single drink base see better engagement and stronger identity.

Tequila supports

clarity cocktails

savory pairings

low-ABV spritzes

coffee programs

high-end spirit-forward builds

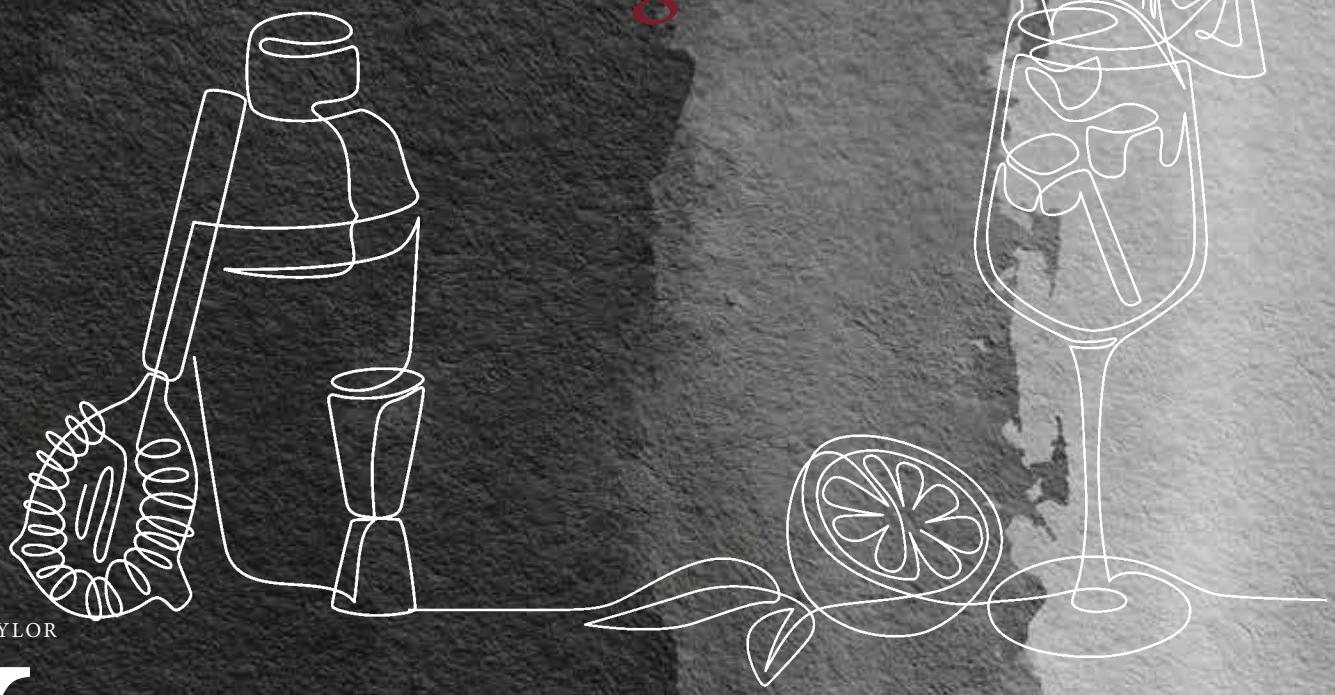
frozen volume drivers

That breadth is the opportunity.

Tequila’s not just for summer or salt rims anymore. It’s a year-round spirit with lanes that bartenders are only beginning to explore — and the bars who lean into those lanes are the ones capturing the moment

VODKA AS A CANVAS

How Bars Use Neutral Spirits to Showcase House Ingredients



BY CLARE TAYLOR

Vodka has quietly re-entered the conversation in serious cocktail programs—not through flashy branding or trend cycles, but because it serves a need that no other spirit fills as effectively. As bars increasingly define themselves through house-made components, kitchen-informed prep, and cross-disciplinary creativity, vodka has become the most reliable vehicle for letting that work actually show. Its neutrality, once dismissed as a lack of character, is now the feature bartenders lean on to highlight the flavors they've built from scratch.

At its best, vodka functions like negative space in design: it gives shape to everything around it. In gin, mezcal, rum, or tequila cocktails, the base spirit inherently sets the tone. But when a bar wants the star of the drink to be their strawberry-top cordial, toasted-grain syrup, preserved citrus, fermented carrot juice, or whey-washed herb blend, vodka is the only spirit that supports without steering. It unobtrusively frames flavor, enhancing texture and structure without adding competing aromatics. For a growing number of cocktail programs, especially those with strong culinary partnerships, that restraint is not boring—it's strategic.

This shift aligns with a broader industry trend: bars using what they already have—kitchen trim, seasonal surplus, and prep byproducts—to create high-value cocktail components. Vodka excels here because of its extraction efficiency and precision. Herb stems become bright infusions with no vegetal harshness. Melon rinds deliver clean, fragrant notes in under 24 hours. Roasted-squash skins, coffee grounds, citrus peels, and berry pulp can be turned into shelf-stable syrups or cordials that taste more nuanced than store-bought alternatives. Vodka pulls only what you want: aromatic oils, fresh flavors, and subtle complexities. It gives operators a way to convert scraps into signature serves with almost no additional labor.

Vodka also amplifies current clarified-cocktail trends. Clarified citrus, clarified berries, clarified milk punches, and clear tea bases are all visually striking and photograph exceptionally well. Vodka supports these ingredients without clouding or shifting the color, making it the backbone of crystal-clear cocktails that batch well, last longer, and perform consistently across service. For high-volume programs, freezer martinis, pre-carbonated vodka highballs, and low-ABV spritzes built on clarified fruit aren't just pretty—they're operationally ideal.

Another emerging angle is vodka as a medium for preserving seasonality. Bars are increasingly developing preserves and "pantry" ingredients that capture peak produce for use months later: roasted fruit reductions, fermented honeys, freezer cordials, herb hydrates, and preserved citrus oils. Vodka stabilizes these items, extending their usable life and keeping their flavor integrity intact. A July peach syrup can find its way into a January vodka highball without tasting like compromise. Vodka becomes the bridge between seasons, ensuring the bar's identity isn't dictated by the market's limitations.

An additional topic worth weaving into this narrative is vodka's growing role in hybrid bar–kitchen identity. Many modern programs blur the line between bartender and cook: fermenting, clarifying, juicing, preserving, souring, smoking, and infusing. Vodka behaves like the spirit equivalent of a white plate in fine dining—it lets the bar's culinary techniques be seen and appreciated. A bartender's lacto-fermented blackberry syrup tastes distinctly different from one made by another bar; vodka preserves that fingerprint and ensures the guest tastes the bar's individual craftsmanship rather than a spirit's dominant personality.

Finally, there's the front-of-house angle: vodka makes it easier for staff to communicate a bar's unique work. When a drink features a house-made ingredient as its main flavor driver, it frees servers and bartenders from brand-forward talking points. Instead of reciting distillation specs, they can tell the story of the bar's basil stem syrup or fermented strawberry cordial. That shift elevates the bar's internal value, strengthens team identity, and turns house-made components into sellable, repeatable signatures.

In a time when originality drives differentiation and efficiency defines success, vodka isn't the fallback spirit—it's the frame that lets a bar's own creativity take center stage. It gives operators room to express their culinary point of view, it supports sustainability without being performative, and it creates space for house ingredients to become true menu anchors. Neutrality, in this context, is power.

Many modern programs blur the line between bartender and cook: fermenting, clarifying, juicing, preserving, souring, smoking, and infusing.

Aphrodisiacal Sippers

Certain ingredients have long been linked to romance, desire, and indulgence.

HONEY

Honey carries centuries of myth — even the word "honeymoon" traces back to the tradition of drinking mead for fertility and good fortune. In cocktails, it adds body, subtle florality, and a lingering sweetness that plays well with citrus and whiskey. Try infusing honey into vodka to create your own honey liqueur.

Honey Do

2/3 cup honey
1/2 cup water
1 1-inch piece of orange zest, pith removed (optional)
1 stick cinnamon (optional)
1 1/2 cups vodka

Cook honey, water, orange zest, and cinnamon over medium heat, stirring frequently, until it is integrated into a syrup, about 5 minutes. Let cool, with the orange zest and cinnamon still in the pot. Scrape off any white foam.

Once syrup has cooled, remove zest and cinnamon. Then combine honey syrup and vodka in a sealable glass jar, seal, and shake. Serve immediately, or for better flavor, allow to rest for a minimum of 12 hours. Store at room temperature or in the refrigerator for up to 6 months.

Honey Margarita

Combine 1 1/2 oz honey liqueur, 1 oz silver tequila, 1 oz lime juice, and 1/2 oz triple sec in a shaker with ice.

continued on page 12

MALIBU®

TASTY TROPICAL AND TICKLED PINK

Item # A070622

SIP EASY. ENJOY MALIBU RESPONSIBLY.

Malibu® Pink. White Rum with Tropical Liqueur. 21% Alc./Vol. ©2026 Imported by Pernod Ricard USA, New York, NY.

GINGER

Few ingredients walk the line between warming and refreshing like ginger. Its natural spice stimulates circulation and offers a clean bite that keeps a drink lively. Use ginger syrup in highballs or a fresh muddle in a mule variation to bring more freshness.

CHILE

Capsaicin, the compound responsible for heat, triggers an endorphin rush not unlike attraction itself. Used sparingly, it turns a cocktail into an experience. Think spicy margaritas, Ancho Reyes spritzes, or make a chile tincture dashed over a martini or a gin sour.

To make the tincture soak habaneros in vodka, pour vodka in a pint mason jar and drop a couple halved habaneros in.Let it sit about a week and then pull the peppers.

CHOCOLATE AND CACAO

What is more associated with Valentine's day than chocolate? Chocolate's association with romance is centuries deep — the Aztecs drank cacao as a ceremonial aphrodisiac, and modern neuroscience confirms it triggers dopamine release. In cocktails, it provides texture and aroma rather than cloying sweetness when used thoughtfully.

Brandy Dark Cocoa

serves 2

2 cups of milk
2.7 oz of dark (70%) chocolate chips
4 ounces of brandy
1 ounce of simple syrup
Pinch of salt

Heat milk to simmer, turn off heat, add chocolate and salt, stir till combined. Add syrup and brandy, serve.

VANILLA

Vanilla's soft, warm scent is known to relax the nervous system, which might explain its near-universal appeal. It adds roundness and depth, especially in rum or bourbon cocktails.

Try a Vanilla Bean Old Fashioned with brown sugar vanilla syrup and angostura or chocolate bitters — simple, aromatic, and irresistibly smooth.

Elevate the Valentine's experience by engaging all the senses. Small details, like a handwritten note served with each cocktail, can turn a simple drink into a memorable moment.

SENSORY IMPACT & THE TEXTURAL COCKTAIL

BY CLARE TAYLOR

Foams have moved far beyond the early-2000s "molecular mixology" moment and are quietly becoming one of the most versatile tools in a modern bar program; not to mention simple. For operators focused on multisensory drinks, controlled aromatics, and memorable presentation, a well-made foam adds dimension without complicating the build. Today's cocktail foams aren't just a garnish—they're a deliberate layer of texture, aroma, and structure that can define a drink's entire identity.

Texture Beyond the Shake: Proteins, Stabilizers, and Consistency

Traditionally, bartenders relied on egg whites to add silkiness to a shaken sour. But with dietary restrictions, safety concerns, and the need for consistency in high-volume settings, programs increasingly turn to egg alternatives like aquafaba or commercial replacers. These proteins create a body inside the cocktail itself, giving operators a dependable way to adjust mouthfeel without relying solely on technique. One major con of using these methods to create foam is that they are less stable over time; collapsing if the drink is acidic or warm.

Adding Dimensionality: Foams as a Top Layer

Any foam—whether dispensed from an iSi canister (like a whipped cream dispenser), aerated with an immersion blender, or crafted via a milk frother—requires a protein or protein substitute to stabilize its structure. Gelatin and agar-agar are the most common options due to their neutral flavor and predictable behavior. Gelatin yields a softer, more flexible foam; agar-agar produces a firmer, more meringue-like texture that holds well in warm environments or on top of acidic cocktails. A foam introduces a second "surface" to a cocktail, creating a layered sensory experience: the guest smells one flavor, then drinks another. For operators, this allows flavor separation and controlled aromatic delivery without requiring a complicated build. Think: a citrus-driven highball topped with a basil foam; a chocolate-leaning old fashioned crowned with orange blossom; a gimlet finished with a cold foam infused with lime leaf or lavender.

Because foams can carry strong aromatics without overwhelming the palate, they're a powerful tool for shaping first impressions. Even a small amount of essential oil, hydrosol, or fragrant spirit integrated into the foam can redefine a cocktail's profile.

Operational Considerations: Shelf Life, Labor, and Ease

Foams are surprisingly efficient when built correctly. A stabilized foam stored in an iSi canister can last through an entire service, allowing bartenders to add a finishing touch in seconds. Agar-agar foams hold longest and tolerate heat; gelatin foams create a softer, more ephemeral texture but demand colder storage.

For programs wary of complexity, batchable foams offer a way to add visual drama without increasing prep time. Clarified juices, syrups, fat-washes, and even dairy alternatives can be integrated into foams as long as the protein and stabilizer ratios are correct.

When to Use Foams—And When Not To

Foams shine when they add something the cocktail doesn't already have: aroma, contrast, creaminess, or drama. They fall flat when used as a gimmick or when they obscure the drink's primary flavor. The goal isn't to "modernize" a recipe—it's to create intentional layers that enhance the drinking experience.

Bars that succeed with foams tend to treat them as part of their flavor architecture: a way to direct aroma, shape texture, and reinforce the core concept of the drink. When used thoughtfully, a foam becomes as essential as any other technique in the program.

How to Make a Nitro Foam (Operator-Friendly Method)

Nitro foams—those silky, stable foams dispensed from an iSi canister—are the most service-friendly way to add a dramatic top layer to cocktails. They're consistent, batchable, and hold well throughout a shift when properly stabilized.

The Basic Formula

Every nitro foam is built from three essential components. First, a liquid base—such as juice, syrup blends, dairy or non-dairy milk, or tea—provides the flavor foundation. Second, a protein or stabilizer creates the network that holds the bubbles in place; this can be a protein like egg white, aquafaba, or a commercial replacer, or a hydrocolloid such as gelatin or agar-agar. Finally, gas, typically nitrous oxide (N_2O), is incorporated to form the tiny bubbles that give the foam its airy, silky texture. Some bartenders combine egg whites or aquafaba with gelatin to get ultra-silky, dense foams that last through a long service or acidic cocktails.

The core of any foam is a protein — commonly egg white, though alternatives like gelatin or agar-agar work well too.

Instead of using plain water, choose a flavorful but non-oily liquid: chilled tea, fruit juice, or even champagne are great

options, as long as the alcohol content stays under about 10–20% ABV.

To enhance flavor, mix in a sweetener like simple syrup, honey, or agave.

5 Service Tips

Strain your liquid mixture to remove any pulp or particles that might clog the nozzle.

Shake the canister before every pour.

Dispense at a 45-degree angle for best texture.

Don't overfill the canister; leave 25–30% headspace.

If the foam is too loose: increase stabilizer or chill longer.

If too stiff: reduce agar/gelatin or increase liquid content.

Store canister in ice!

Beyond Foams: Alternative Texture Elements

Texture in cocktails is no longer limited to what fits into a coupe. Bars are experimenting with unexpected tactile elements—boba pearls in highballs, chia seeds in clarified lemonade cocktails, and even tiny hydrogel pearls flavored with vermouth or fruit puree. These additions introduce a playful dimension without undermining the drink's balance.

Almond Brandy Chia Dessert Drink

This is a dessert drink that must sit for the chia seed to soak up some of the milk and create thickness.

1 cup vanilla-flavored almond milk (or plain almond milk with a splash of vanilla extract)
1.5 ounces (3 tablespoons) Cognac
¼ teaspoon ground cinnamon
⅛ teaspoon ground nutmeg
1-2 tsp of chia seed

Combine all ingredients and let sit for 10-15 min before serving with a glass.

Grapefruit & Rosemary Gin Fizz with Gelatin Foam

Foam

1 cup fresh grapefruit juice (strained)
0.5 tsp powdered gelatin (~0.5% by weight)
0.5 oz simple syrup
1 small rosemary sprig (optional, for infusion)

Foam Instructions: Bloom the gelatin in 1 tablespoon cold water for 3–5 minutes.

Heat the grapefruit juice gently in a small pot, then whisk in the bloomed gelatin until fully dissolved. Add simple syrup and infused rosemary if desired.

Let the mixture cool slightly. Strain into an ISI whipper.

Charge with 1 N_2O cartridge. Shake gently.

Chill in the fridge 10–15 minutes.

Dispense the foam on top of the cocktail just before serving.

Cocktail

2 oz gin
1 oz fresh lemon juice
0.75 oz rosemary simple syrup
2 oz soda water (optional, for fizz)

Method – Cocktail

Shake gin, lemon juice, and syrup with ice.

Strain into a chilled highball or coupe glass.

Top with the grapefruit gelatin foam.

Doc Holliday
BOTTLED IN BOND
STRAIGHT BOURBON WHISKEY
Long before John Henry Holliday became known throughout these United States as "Doc" – and also "the slickest gunslinger in the west" – he was a darn good... dentist.
Today we know him as the symbol of loyalty in the Wild West and the hero of the Gunfight at the O.K. Corral.
We salute Doc Holliday as the epitome of a true friend and a loyal companion with this limited edition Doc Holliday Bottled in Bond Straight Bourbon Whiskey.
Produced at a single distillery during a single distilling season, aged for at least four years in a federally bonded warehouse, and bottled at exactly 100 proof, enjoy this extraordinary addition to the Doc Holliday line.
TASTING NOTES
The aroma is warm and inviting, with a delightful combination of caramelized apples and sweet maraschino cherry, interwoven with subtle clove, nutmeg, and freshly roasted pecans.
Upon tasting, discover a smooth, velvety mouthfeel with layers of caramel, apple pie, and sweet cherry up front, followed by a gentle, warming spice. The deep vanilla sweetness is balanced by a savory nuttiness, offering a toasted, almost buttery flavor that lingers.
The finish is long and refined, creating a satisfying, rich conclusion.
THE WORLD WHISKEY SOCIETY
WWW.WORLDWHISKEY.COM
Produced & Bottled by World Whiskey Society Co. | Pendergrass, GA | ABV: 50.0%
