Dear Licensee:

As summer approaches and activity heats up across our state, Alabamians will be looking for a variety of products to enjoy responsibly. Your role in serving your communities with care and professionalism is invaluable, and we appreciate the positive impact you make every day. The summer months bring increased travel, outdoor gatherings, and family celebrations, and you play a key role in helping ensure these occasions remain safe and enjoyable for everyone.

This spring, the Board has approved a new selection of products designed to meet consumer demand and enhance the buying experience for both retailers and onpremise establishments. These additions reflect our ongoing commitment to supporting your business and ensuring that Alabama's marketplace remains strong as we enter a busy summer season. We are grateful for the continued collaboration between the Board and our licensees, which allows us to adapt to evolving trends and maintain a high standard of service statewide.

Your commitment to safety remains essential to the citizens of Alabama. Thank you for your continued partnership and for the work you do each day to uphold the standards of this agency. We wish you a successful and safe summer season.

Sincerely,

Curtis E. Stewart

Finding femininity

BY CLARE TAYLOR

Bourbon has long occupied a very specific space. It is presented as strong, serious, and composed, a drink that signals taste through restraint. It is stirred, not shaken. Served in heavy glassware. Framed in language that leans toward the masculine—bold, structured, uncompromising.

There is nothing inherently wrong with that framing. But it is incomplete, and increasingly out of step with the way people are beginning to think about food, drink, and identity more broadly.

The larger culinary world has already embraced fluidity. Boundaries between cuisines, cultures, and techniques are constantly being reworked, creating something more dynamic and inclusive. Cocktails, by comparison, often lag behind, particularly when it comes to spirits like bourbon that are deeply tied to tradition.

The question, then, is not how to make bourbon softer. It is how to make it more expansive.

The first shift comes through lightness. A spritz reframes bourbon entirely, lifting it out of its usual density and into something more immediate and social. Bubbles introduce movement, bitterness adds contrast, and the drink becomes less about quiet contemplation and more about shared experience.

Citrus offers another entry point. Lemon sharpens bourbon, pulling its spice into focus and cutting through its sweetness. Lime pushes further, adding energy and shifting the drink into a brighter, more unexpected space. These are not traditional pairings, which is precisely why they feel fresh.

in Bour- bon

The bourbon itself plays a larger role than it is often given credit for. A high-rye bourbon, with its peppery edge, almost asks for brightness. Add lemon and a sprig of thyme or basil, and suddenly the spice feels intentional rather than sharp. It becomes something closer to a warm-weather sour—structured, but lifted. Even something as simple as bourbon, lemon, and a touch of honey, lengthened with soda, can shift the entire perception of the spirit. A wheated bourbon softens, opening space for florals or creamier textures. A splash of elderflower, a hint of orange blossom water, or even muddled berries can sit comfortably alongside it. Shake it

with citrus and a light sweetener, and you get something that feels more like a composed cocktail than a reworked classic. Some barrels lean heavily into dessert notes—vanilla, caramel, toasted sugar. Lean into them with something like a bourbon and cream build—just a touch of dairy or coconut, maybe a hint of coffee or cacao—and the drink becomes almost confectionary without tipping into excess. Or take the opposite route: pair those same notes with bitterness, like grapefruit or amaro, and suddenly the sweetness feels restrained, balanced, more adult.

Texture becomes the final, often overlooked, dimension. A drink built over ice remains open, evol-

ing as it sits, allowing flavors to shift gradually. A shaken drink integrates more fully, creating something cohesive and balanced from the first sip. Each approach changes not just the drink, but the way it is experienced.

And then there are the details—the elements often dismissed as unnecessary or excessive. A floral note that lingers just beyond the obvious. A garnish chosen for aroma rather than decoration. A balance that feels intentional rather than default.

These are not frivolous choices. They are what make a drink feel complete, what turn it from something consumed into something experienced.

Finding femininity in bourbon is not about changing the spirit itself. It is about expanding the context in which it exists. It is about allowing for brightness alongside depth, for play alongside structure, for a broader range of expression that reflects the way people actually drink now.

In doing so, bourbon becomes something more flexible, more inclusive, and ultimately more relevant.

Bourbon Spritz

1.5 oz bourbon
1 oz Aperol or light amaro
2 oz sparkling wine

Stir all ingredients together and serve over crushed ice.

Bourbon Lavender Sour

1.5 oz wheated bourbon
0.75 oz lemon juice
0.5 oz lavender honey syrup

Combine all ingredients together and shake to combine, serve over crushed ice.

Strawberry Bourbon Smash

1.5 oz bourbon
1 oz strawberry
0.5 oz lemon juice
Mint

Muddle strawberry and mint together, add other ingredients and shake to combine, strain and serve over crushed ice.

Bourbon Cream Cooler

1.5 oz bourbon
1 oz coconut milk or light cream
0.5 oz maple syrup

Combine all ingredients together and shake to combine, serve over crushed ice.

DRINKING WITH THE FOUNDING FATHERS

BY CLARE TAYLOR

Fourth of July has a way of simplifying history into something easily consumed—flags, fireworks, a cooler filled with beer. It is celebratory, but it is also detached from the reality of how early Americans actually lived.

Because if there is one thing that defined drinking in 1776, it was not moderation.

Alcohol was not reserved for special occasions. It was woven into daily life in a way that feels almost foreign now. Water sources were inconsistent and often unsafe, particularly in growing cities and settlements, and fermentation offered a level of reliability that made alcohol the more practical choice. Drinking was not indulgence. It was infrastructure.

Rum dominated early on, tied closely to Caribbean sugar production and transatlantic trade. It was accessible, widely distributed, and deeply embedded in colonial economies. As expansion moved inland, whiskey became more prominent, transforming surplus grain into something stable and transportable. Hard cider filled the gaps, especially in regions where apples were abundant and easily fermented. Madeira, a fortified wine, became a favorite not only for its flavor but for its durability—it could survive long sea voyages without spoiling, making it a staple at both casual gatherings and historic events.

The drinks themselves reflected necessity as much as preference. A toddy, built from spirit, water, sugar, and spice,

could serve as comfort, medicine, or habit depending on the context. A flip, enriched with egg and often served warm, blurred the line between drink and sustenance, providing calories as well as alcohol. These were not delicate cocktails. They were functional, caloric, and often strong enough to last.

George Washington is often remembered for his association with whiskey. At Mount Vernon, his distillery became one of the largest in the young nation, producing rye-heavy whiskey that reflected early American tastes—spicier, grain-forward, and far less refined than modern bourbon. Distilling allowed him to convert surplus grain into a shelf-stable, transportable commodity in a cash-poor economy.

What he actually drank tells a different story. Madeira was his preference, a fortified wine that dominated colonial tables because it could survive long sea voyages without spoiling. Its oxidative, nutty character made it versatile—equally suited to aperitif or after-dinner drinking—and it became so embedded in American culture that it was present at nearly every major political moment of the era.

Benjamin Franklin, by contrast, represents the social side of drinking culture. His preference for rum punch places him firmly within the communal drinking tradition. Punch was not an individual drink; it was built in large format, often in bowls, designed to be shared. It balanced spirit, citrus, sugar, water, and

Stop Shooting Tequila: *start pairing it*

Because if that is how you are approaching tequila, you are not really experiencing it. You are bypassing it entirely.

BY CLARE TAYLOR

Do not get a hangover after your night out with tequila. Do not suffer through a rushed shot chased by salt and lime, something endured rather than enjoyed. And above all, do not drink tequila on an empty stomach and expect it to treat you well.

Because if that is how you are approaching tequila, you are not really experiencing it. You are bypassing it entirely.

Tequila is one of the most expressive spirits in the world, but it is rarely treated that way in casual settings. It begins with agave, a plant that can take anywhere from six to ten years to mature, storing sugars slowly before it is ever harvested. That time translates directly into flavor—citrus, earth, minerality, sometimes a flash of green pepper or herbs. When aged, it develops further, picking up notes of vanilla, caramel, and spice from the barrel.

These are not fleeting characteristics. They are foundational. And they make tequila uniquely suited to one thing people rarely associate it with: food.

Pairing tequila with food does not complicate the experience. It clarifies it, grounding the spirit in something tangible and slowing the pace at which it is consumed.

It can begin simply, with something as

continued on page 10

19 42 Don Julio

MADE TO BE RAISED

19  42
Don Julio

OFFICIAL FIFA WORLD CUP 26™ SUPPORTER

straightforward as chicharrones. The fat coats your palate, the salt lingers, and then the tequila cuts through it—bright, clean, resetting everything for the next bite. What could feel heavy becomes balanced, almost rhythmic in its repetition. Enjoy with “Ranch Water” which is a built cocktail with blanco tequila, lime and sparkling water.

Cheese expands that idea. Aged cheddar, sharp and structured, meets tequila in a way that amplifies both. Brie, softer and more indulgent, calls for something with a little more roundness, a tequila that has spent time in barrel and developed subtle sweetness and texture. These are pairings that feel surprising at first, but quickly become intuitive.

**Reposado Paloma
(Charcuterie / Cheese)**

- 2 oz reposado tequila*
- 1.5 oz fresh grapefruit juice*
- 0.25 oz lime juice*
- Pinch salt*
- 2 oz soda*

Seafood reveals tequila’s precision. Oysters, with their salinity and mineral edge, align with its brightness in a way that feels almost inevitable. Ceviche, already built on citrus and freshness, gains depth when paired with a spirit that mirrors those qualities while adding weight and structure.

As the meal deepens, so does the tequila. Spicy dishes, grilled meats, and smoked

flavors require something that can stand alongside them without overpowering. A reposado carries enough structure to meet those flavors while maintaining balance, while an añejo settles into richness, aligning with caramelization and sweetness in a way that feels complete rather than contrasting.

**Smoky Reposado Highball
(Entrée / BBQ, Spice)**

- 1.5 oz reposado tequila*
- 0.25 oz mezcal*
- 0.5 oz lime juice*
- Top with soda*

Dessert, unexpectedly, may be where tequila makes the strongest case for itself. Citrus-based sweets echo its brightness. Mexican chocolate pulls forward its darker, spiced notes. Flan, with its caramelized sugar and soft texture, mirrors the influence of the barrel in a way that feels seamless. At this stage, tequila is no longer an opening act. It is the final note.

**Añejo Old Fashioned
(Dessert / Flan, Chocolate)**

- 2 oz añejo tequila*
- 0.25 oz agave syrup*
- 2 dashes bitters*

What changes when you approach tequila this way is not just flavor, but pace and perception. You stop rushing. You start noticing. The experience stretches out instead of collapsing into a single moment defined by intensity.

And once that shift happens, it becomes difficult to return to the idea of tequila as something meant to be thrown back at all. It becomes something to return to, not recover from.

Savory in the Sun

Rethinking Warm-Weather Drinking

BY CLARE TAYLOR

Spring rarely announces itself all at once. It stretches in slowly, then suddenly the air shifts. The days get longer, the heat lingers just a little more, and the grill comes out almost instinctively. Patties, hot dogs, vegetables—everything begins to take on the flavor of smoke and char.

The drink, by contrast, tends to remain predictable. Something cold, something easy, something refreshing in the most familiar sense. Beer, usually. Or something citrus-forward and bright.

But there is a quiet disconnect there.

Because what is happening on the plate is not light. It is bold—salt, fat, smoke, spice. These are flavors that linger, that build, that demand attention. Pairing them with something purely refreshing can feel less like harmony and more like interruption, a reset instead of a continuation.

This is where savory drinks begin to make sense.

Not as a replacement, but as a parallel. Herbs are often the first bridge.

Rosemary, thyme, basil—ingredients that move seamlessly between kitchen and glass. Their aroma connects immediately with grilled food, creating continuity between what you smell and what you taste. A drink threaded with rosemary does not sit beside a grilled steak. It echoes it. Expanding beyond the usual, herbs like dill or tarragon introduce a different kind of brightness—greener, sharper, more unexpected—while parsley softens and rounds out more aggressive flavors.

Brine deepens that connection. Olive juice and pickle brine are familiar entry points, but the spectrum is wider than that. Pickled onion liquid adds both acidity and subtle sweetness. Sauerkraut or kimchi brine introduces a gentle funk, something fermented and alive. Used carefully, these elements do not dominate; they act more like seasoning, sharpening everything else in the glass the same way salt sharpens a dish.

Vegetables add another layer, one that feels particularly aligned with the season. Cucumber keeps things light and cooling, celery adds a clean bitterness

that gives structure, and carrot brings a grounded sweetness that complements char without competing with it. Moving further out, fennel introduces a soft anise note, roasted bell pepper adds depth and a hint of smoke, and tomatillo contributes a bright, almost citrus-like acidity. Even the way a vegetable is prepared—raw, juiced, lightly charred—can shift the direction of a drink entirely.

Then there is umami, the element that quietly transforms a drink from interesting to complete. A small amount of miso, a drop of soy sauce, or even a restrained dash of fish sauce can add depth without announcing itself. Mushroom or tomato water can create a savory backbone that feels substantial but still refreshing. These are not ingredients meant to stand out; they are meant to support, to make the drink feel finished.

Texture plays a role as well. A splash of soda water lifts and lightens, making a drink feel appropriate for heat. A touch of oil—olive or sesame, often introduced through fat-washing—can round out sharper edges and add a subtle richness

spice—a structure that still underpins modern cocktails. Franklin's famous "Drinkers Dictionary," first published in 1737 in the *Pennsylvania Gazette*, offers a revealing look into early American drinking culture. Frustrated by the lack of vocabulary around intoxication, Franklin compiled over 200 euphemisms for being drunk—ranging from playful ("cherry-merry," "top-heavy") to vividly descriptive ("half seas over," "his head is full of bees"). What makes the piece stand out is its tone. It is not moralizing, but observational. Franklin wasn't condemning drinking—he was documenting it, treating intoxication as something common enough to deserve nuance and language. The list maps out a spectrum of drunkenness that feels surprisingly modern, reflecting how people experience and describe varying levels of impairment. In doing so, Franklin subtly encouraged awareness.

Naming a state makes it easier to recognize, and perhaps to moderate. More than anything, the *Drinkers Dictionary* shows that drinking in early America was not hidden—it was social, discussed, and deeply embedded in everyday life.

James Madison reportedly consumed whiskey daily, a detail that feels excessive now but was consistent with broader patterns of the time.

Alexander Hamilton occupied both sides of the whiskey economy—as a drinker and as the architect of the federal excise tax on distilled spirits. In a cash-poor early America, whiskey often functioned as currency, so taxing it felt less like a luxury levy and more like an income tax. The result was immediate resistance, culminating in the Whiskey Rebellion.

For a modern drinker, the takeaway

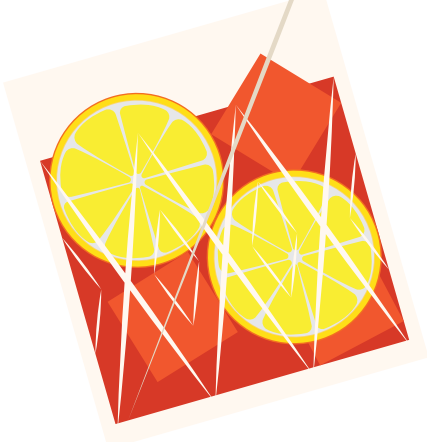

is not to replicate the quantity—it is to reconsider the role. Early American drinking culture was slower, more integrated, and often communal. Spirits were rarely consumed in isolation, and almost never without context.

To drink like it is 1776, then, is not to take a shot. It is to pour something with history. Madeira, served simply or stretched into a cobbler or light spritz. Rye whiskey, built into a sling with sugar, water, and a touch of nutmeg; built over pebble ice in a tall glass. Rum punch, a balance of rum, citrus, and sweetness, made for sharing rather than individual pours. Let the drink sit alongside food, conversation, and time, rather than stand apart from it.

Because for the Founding Fathers, drinking was not an event.

It was part of life.

continued from page 12

that lingers. Even simple dilution, the slow melt of ice, can determine whether a drink feels crisp or weighed down.

What emerges is not a rejection of traditional warm-weather drinking, but an expansion of it. A highball with herbs and a touch of brine becomes something you can return to throughout the afternoon. A vegetable-forward cocktail, balanced with acid and salt, refreshes in a way that feels almost restorative. Even a familiar format—a margarita, a Collins—can shift into savory territory with just a slight adjustment, becoming something more aligned with the food it accompanies.

The choice between building and shaking becomes less about technique and more about context. A drink built over ice stretches out, adapting to the pace of the day, perfect for standing near the grill or moving between conversations. A shaken drink comes together fully, offering something more composed, more intentional, something you sit with rather than carry.

In either case, the goal remains the same. Not to compete with the food, but to move alongside it, to create continuity rather than contrast.

Because sometimes the most satisfying drink in the sun is not the one that cuts through the meal—

- 0.25 oz olive brine
- Top with soda

Tomato Water Highball

- 1.5 oz vodka or gin
- 2 oz tomato water
- 0.25 oz lemon juice

Pickle Spritz

- 1.5 oz vodka
- 0.5 oz pickle brine
- 2 oz soda

HELLO VODKA, MEET JUICE.

You do not have to go sober to get beach-body ready. And you definitely do not have to punish yourself with harsh shots just to feel like you are making a “better” choice. Somewhere along the way, we decided that drinking lighter meant drinking worse—like flavor and restraint could not coexist, like enjoyment had to be traded for discipline.

That tradeoff is entirely unnecessary.

Vodka remains one of the lowest-calorie spirits behind the bar, but its reputation has suffered from how it is used. It is either thrown back quickly, treated as a vehicle rather than a spirit, or buried under overly sweet mixers that flatten everything into one note. On its own, vodka can feel neutral to the point of absence. In the wrong context, it tastes like something you are trying to get through rather than something you chose.

But neutrality, when approached correctly, is not a flaw. It is flexibility—arguably its greatest strength.

The shift is simple: stop thinking of vodka as the drink, and start thinking of it as the structure. What you build around it determines everything. This is not a new concept so much as a forgotten one. Vodka’s rise in the late twentieth century was built on adaptability, but somewhere along the way, that adaptability became shorthand for invisibility. So I say, Vodka, meet juice.

Fresh juice is where that structure comes alive. Not the shelf-stable, sugar-heavy versions that dominate most bars, but juice that carries its own identity—something bright, textured, and alive. When you start there, vodka becomes less of a compromise and more of a foundation.

The most immediate transformation happens when you move away from the expected. Orange and cranberry have their place, but they rarely challenge anything. Beet does. It brings an earthy sweetness, something grounding and slightly unexpected, especially when balanced with acid. Carrot moves in a softer direction, naturally sweet but still tethered

to the earth, particularly when paired with ginger or turmeric. Pomegranate introduces tension—tart, structured, almost tannic—giving the drink a shape that lingers beyond the first sip.

Citrus, too, benefits from expansion. Lemon and lime are reliable, but they are also predictable. Yuzu offers a layered brightness that feels more dimensional, almost perfumed, while calamondin (a tart orange) sharpens the edges with a subtle bitterness. Even something like Buddha’s Hand (a strange lemon in the shape of an octopus), used for its aromatic oils rather than juice, can shift the entire experience before you even taste it, reminding you how much aroma drives perception.

Greens introduce a different kind of freshness, one that feels more aligned with how people are starting to think about wellness and flavor. Cucumber is the easiest entry point—cooling, clean, and almost hydrating in its effect. Celery adds a quiet salinity that gives structure without weight. Leafy greens can work, but they require balance, something to round them out and keep them from becoming overly earnest or one-dimensional. What they need is contrast. Acid is usually the first step—lemon or lime sharpens the edges and keeps the drink from feeling flat. A touch of natural sweetness, whether from apple, cucumber, or even a small amount of honey, helps soften the bitterness without turning the drink sugary.

Where this approach fully opens up is in combination. A single juice can carry a drink, but a blend gives it direction. Carrot with orange and ginger moves bright but layered. Beet with pomegranate and lemon deepens into something more complex, almost contemplative. Cucumber with apple and mint becomes something you can drink without thinking—and then realize, halfway through, that you are enjoying it more than you expected.

And that is the point.

Drinking lighter is not about stripping things away. It is about choosing ingredients that do more with less,

Encompass TECHNOLOGIES

about building something that feels intentional rather than restrictive. It is also about longevity—drinks that allow you to pace yourself without feeling like you are missing out.

Green Highball

- 1/2 oz vodka
- 1 oz green juice (kale/spinach + cucumber)
- .5 oz fresh lemon juice
- 2-3 oz soda water

Nothin Beets Vodka

- 1.5 oz vodka
- 1 oz fresh beet juice
- 0.5 oz lemon juice
- 0.25 oz honey syrup
- Pinch of salt

Shake with ice and strain over fresh ice.

Carrot Ginger Spritz

- 1 oz vodka
- 1 oz fresh carrot juice
- 0.5 oz lemon juice
- 0.25 oz ginger syrup
- 2 oz sparkling water

Build over ice, stir gently, and top with soda.

How Bitterness Became Cool Again

BY CLARE TAYLOR

The surprising rise of bitter aperitifs in modern drinking culture

Not long ago, bitterness was the flavor we were taught to avoid. Children turned their noses up at dark greens, coffee was drowned in sugar, and cocktails erred on the sweet or sour side. But somewhere along the line, bitter became desirable—even chic. Now, whether it's a Negroni at happy hour or an icy glass of amaro after dinner, bitter drinks are making a bold comeback.

Bitterness with Purpose

Historically, bitter flavors weren't just about taste—they were medicinal. Many of today's aperitifs and digestifs began as herbal tonics, designed to stimulate the appetite or settle the stomach. Campari, Fernet-Branca, and Suze all originated in 19th-century Europe as botanical elixirs laced with gentian, wormwood, quinine, or rhubarb root. These days, their sharp edges signal something else: sophistication, complexity, and a break from cloying sweetness.

The Negroni Effect

It's impossible to talk about bitterness in the modern cocktail revival without mentioning the Negroni. This three-ingredient Italian classic (equal parts gin, sweet vermouth, and Campari) went from bartender favorite to Instagram staple in under a decade. Its vibrant red color draws you in—but it's the bracing, bittersweet punch that keeps people coming back.

But there are more ways to make a negroni. Swap Campari for Aperol for a less bitter and more approachable cocktail, often recommended for those new to Negronis. Use Cynar, an artichoke-based amaro, for a different bitter profile. Use a blanc/bianco vermouth and a bitter white liqueur like Suze or Luxardo Bitter Bianco instead of the red vermouth and Campari for a lighter, more delicate, and herbal version.

Add muddled strawberries or fresh blood orange juice for a fruity twist. Infuse gin with melted coconut oil to create a subtle coconut finish and mellower bitterness.

The Appeal of Acquired Taste

Part of bitterness's new appeal lies in its challenge. Unlike sugary or fruity flavors, bitterness doesn't cater to you. It asks for your attention, your patience. It invites contemplation. You can't chug a bitter cocktail. It makes you slow down and engage with the drink.

That sense of intention fits perfectly with broader cultural trends: a move toward mindfulness and choosing quality over quantity. In a world overwhelmed by sweetness—literal and digital—a bitter drink feels grounding.

Meet Some Modern Bitter Stars

Today's bar cart looks different than it did a decade ago. You'll now find bottles like:

Cocchi Americano – A gentian-forward aperitif wine with citrus and floral notes

Amaro Nonino – Balanced and versatile, with warm spice and soft bitterness

Cardamaro – A wine-based amaro made with artichoke and cardoon

Suze – A bold, earthy gentian liqueur from France, polarizing and addictive

These bottles aren't just for sipping—they're tools for layering flavor, adding intrigue, and shifting the mood of a drink. A splash of amaro can soften a whiskey sour; a dash of gentian liqueur can turn a highball into something far more memorable.

How to Start Drinking Bitter (and Like It)

If you're new to bitter drinks, ease in. Try:

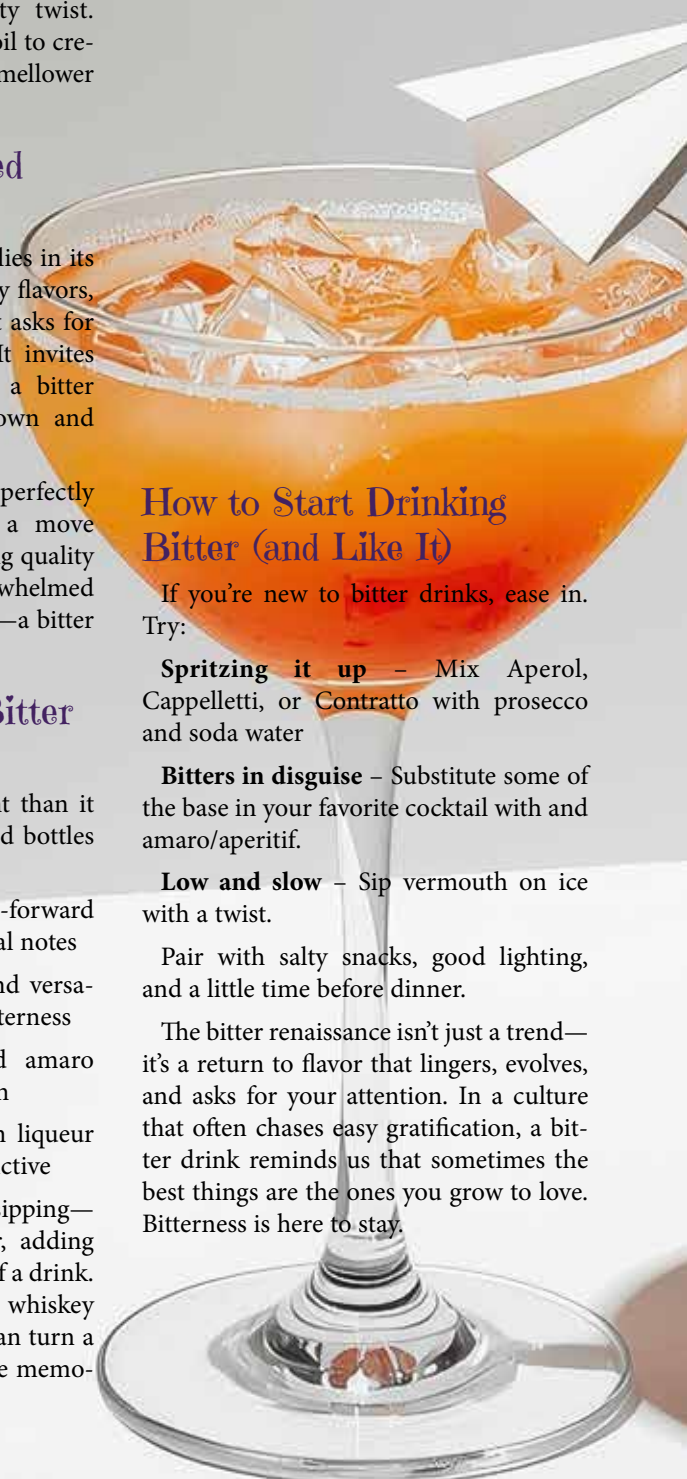

Spritzing it up – Mix Aperol, Cappelletti, or Contratto with prosecco and soda water

Bitters in disguise – Substitute some of the base in your favorite cocktail with and amaro/aperitif.

Low and slow – Sip vermouth on ice with a twist.

Pair with salty snacks, good lighting, and a little time before dinner.

The bitter renaissance isn't just a trend—it's a return to flavor that lingers, evolves, and asks for your attention. In a culture that often chases easy gratification, a bitter drink reminds us that sometimes the best things are the ones you grow to love. Bitterness is here to stay.
